

# NOW REPRESENTING S&L IN NORTHERN OHIO.

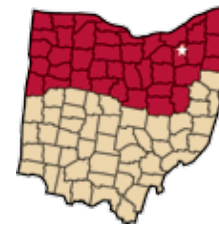

p: (330) 630-0890  
Main Offices in Akron

Smith & Loveless is pleased to announce its partnership with Pump Systems, LLC, a prominent wastewater representative that will offer the full line of S&L wastewater equipment in northern Ohio. This combination brings together two reputable companies, armed with quality packaged wastewater pumping, headworks & treatment systems, experience and personal support. Pump Systems, which operates office locations in Akron (main) and Groveport, will also offer complete pump repair and service, supported by 12 service vehicles covering the region.
